DaF Fast Track

From a basic (A1.1) to an independent user (B1.2) in 3 semesters

Thanks to a dedicated QV-budget the Language Center now offers a fast track program which alternates between compact seminar blocks and courses across the semester. Students can start without any prior knowledge of German, but they can also join the fast track if they are at a higher language level.

Make sure not to miss our enrolment periods and feel free to ask any questions you may have at daf@spz.uni-siegen.de or register for consultation hours via our website.

Please note: Language courses are work-intensive. In addition to active and constructive participation in the lessons, students must plan sufficient study and practice time.
